SUMMARY

Dedicated Information Technology graduate with hands-on experience in full-stack development through academic and personal projects. Strong focus on backend development, system logic, and database management. Gained practical experience as a Full Stack Web Developer intern at PTV (People's Television Network), contributing to system improvements and development tasks.

EDUCATION

Polytechnic University of the Philippines – Quezon City Campus

2022 – 2026

Bachelor of Science in Information Technology

- President's Lister, SY 2022–2023 (First & Second Semesters)
- Dean's Lister, SY 2023–2024 (First & Second Semesters); SY 2024–2025 and SY 2025–2026 (First Semester)

St. Theresa's School of Novaliches

2016 – 2022

Science, Technology, Engineering, and Mathematics (STEM)

WORK EXPERIENCE

On-the-Job Trainee / Full Stack Web Developer Intern

2026

People's Television Network (PTV)

- Developed and maintained a full-stack Intern Monitoring System using Next.js, Node.js/Express, and Supabase, covering intern registration, attendance, and reporting.
- Designed backend authentication and account management logic, including OIC/department auto-assignment, JWT-based auth, and OTP verification.
- Built automated OIC rotation and attendance-tracking features, including PDF export with color-coded status reporting.
- Assisted in improving UI/UX and performed bug fixes and system maintenance to ensure reliability and usability.

PROJECTS

Carwash – Point of Sale System

Full Stack Developer

- Developed a web-based POS system using Next.js, Node.js, and Supabase; designed the database and core sales/inventory features; integrated with inventory and appointment platforms.

Eatfficiency – Mobile Application

Full Stack Developer

- Built a FlutterFlow mobile app that generates recipe ideas from leftover ingredients, promoting food sustainability and reduced waste.

Debt Management System (Laravel Project)

Full Stack Developer

- Developed a web-based debt management system (Laravel, MySQL) with CRUD for customer accounts, payment records, and outstanding balances.

Financial Management System (Laravel Project)

Backend Developer

- Built CRUD features for financial records, transactions, and reports, with backend logic, database integration, and a responsive UI.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, CSS3

Backend: Node.js, Laravel (PHP), Python

Databases: PostgreSQL, Microsoft SQL Server (MSSQL), MySQL

Tools & Platforms: GitHub, Postman, Vercel, Railway, Figma, VS Code, FlutterFlow, PowerBI, XAMPP

CERTIFICATES

Civil Service Examination Passer – Professional

March 2026

MABL Skills Certifications: Foundation

June 2025

Saylor Academy Certificate of Achievement: Information Security

March 2025
